

Specification

Model : T8-F120-18W

1. Feature

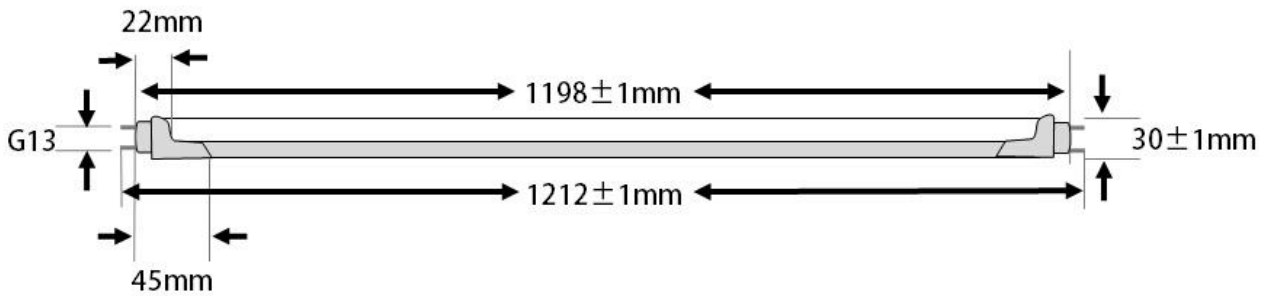

- (1)Environmental: Efficiently save energy which can save 70% energy than fluorescent tube;
- (2)High Quality Materials: imported chips, high quality PC diffuser, and pure aluminum;
- (3)Without thermal radiation, stable, long life span, modern design;
- (4)Fast response, non-flickering, low glare;
- (5)High CRI, show what the things really are.

2. Specification

Model	T8-F120-18W
LED Type	SMT 2835 LED
Base Type	G13
Input Voltage	AC 85-265V (50/60Hz)
Driver	Built-in Non-isolated Driver
Efficiency	>90%
Rate Power	18±1W
CCT	2800K-6500K
Luminous Flux	1620-2160 Lm
CRI	≥70/80
Bean Angle	180°±5°
PF	≥0.9
Dimension	1198mm±1mm

Weight	210g
SCDM	≤7dB
Insulation Resistance	> 4MΩ (500V DC)

3. Dimension (Unit: mm)

4. Installation

Please according to following properly installed :
